

iSMA-B-LP / iSMA-B-LP-1

iSMA-B-LP is a wall panel with 2.3" LCD display and four function buttons. Additionally, the panel has the built-in temperature sensor and optionally the humidity and CO₂ sensors. iSMA-B-LP is powered with 24 V AC/DC and has the built-in RS485 port (Modbus RTU/ASCII, BACnet MSTP). Use of open communication protocol allows to connect the panel with any controller supporting Modbus RTU/ASCII or BACnet MSTP. Together with iSMA-B-FCU controller, the panel allows to change the basic parameters such as: temperature setpoint, fan speed, FCU mode and others. Thanks to built-in USB port, there is possibility to maintenance the panel configuration without the power supply. iSMA-B-LP has the modern design and it is available in different colours at client's request, and also in two versions of button icons appearance.
